Great book to learn colors. Each page focuses on one color. Other colors are present, but in a subdued way. The color in question is very obvious and bright. This was my daughters favorite book to work on colors, and it had the upside of also teaching her to recognize several of the classic star wars characters.

Star Wars Colors by Scholastic Board Book Barnes Noble

While many of the colors are bold and true, particularly gold C-3PO, others are a bit of stretch. Queen Amidala's ship looks more purple than silver, and the MagnaGuard's electrostaff does not look purple at all. While the book is not an effective color primer, the youngest Star Wars fans will enjoy the large images of their favorite characters.
