

BABY WEANING

RELATED BOOK :

Weaning When and how to stop breastfeeding BabyCenter

Baby-led weaning: Weaning is easiest when your child begins to lose interest in nursing, and that can happen any time after she starts eating solids (around 4 to 6 months). Some babies are more interested in solid food than breast milk by 12 months, after they've tried a variety of foods and can drink from a cup.

Weaning How To La Leche League International

If weaning is your decision, it's best for you and your baby to do it gradually, and with love. If you wean cold turkey, your breasts will likely become painfully engorged, and you might develop a breast infection. Your baby will probably fight the switch from your warm, soft breast to a plastic substitute.
