Crater XV by Kevin Cannon Goodreads

Crater XV is a rather thick graphic novel that takes about a third of the book to really begin making I both love and hate the graphic novel genre. As someone who really enjoys the visual aspect, I like seeing the characters and the marriage between word and image.

Crater XV Review GOOD ok bad

Crater XV, for all my fears that it d mire itself in space exploration, turned out to be exactly as rambunctious and adventurous and gripping and thoughtful as I d hoped it would be. Cannon is so skilled at telling an adventure tale that I cannot immediately draw to mind a single author who does it better.
