### **The Essential Guide To Close Up and Macro Photography**

Close up and macro photography actually covers a very wide area of photography. The subject splits into three distinct areas, close up, macro and micro. These are defined by the magnification that the subject is reproduced at. Anything from 0.10x magnification is considered close up photography through to 0.5x magnification.

### **Getting Started Guide to Close up Photography**

Close-up photography, or macro photography, can be a very rewarding form of photographic expression. The great thing about it is that you can do this from your basement at home, if necessary. Of course you can, and should, go outdoors too and setup shots in a forest or at the sea, but you can also setup shots of everyday subjects and shoot them
