CSI effect Wikipedia

The CSI effect, also known as the CSI syndrome and the CSI infection, is any of several ways in which the exaggerated portrayal of forensic science on crime television shows such as CSI: Crime Scene Investigation influences public perception. The term was first reported in a 2004 USA Today article describing the effect being made on trial jurors by television programs featuring forensic science.

The impact of incarceration on juvenile offenders

Increasingly, research points to the negative effects of incarcerating youth offenders, particularly in adult facilities. Literature published since 2000 suggests that incarceration fails to meet the developmental and criminogenic needs of youth offenders and is limited in its ability to provide appropriate rehabilitation.
