Risk assessment Wikipedia

Broadly speaking, a risk assessment is the combined effort of 1. identifying and analyzing potential (future) events that may negatively impact individuals, assets, and/or the environment (i.e., risk analysis); and 2. making judgments "on the tolerability of the risk on the basis of a risk analysis" while considering influencing factors (i.e., risk evaluation).

Risk Assessment Questionnaire Example Accounting

The following questionnaire will help the auditor assess risk. The existence of a condition covered by the questionnaire does not mean errors or fraud have occurred; it is a warning sign indicating increased risk in the audit areas affected. The questionnaire should be modified in accordance with the size and complexity of the entity.
