International Nomenclature of Cosmetic Ingredients Wikipedia

The International Nomenclature of Cosmetic Ingredients, abbreviated INCI, is a system of names for waxes, oils, pigments, chemicals, and other ingredients of soaps, cosmetics, and the like, based on scientific names and other Latin and English words. INCI names often differ greatly from systematic chemical nomenclature or from more common trivial names

How to Label Cosmetic Products Chemists Corner

My first experience with cosmetic labeling came in college when I turned over the bottle of a shampoo and looked at the ingredient list. It was right around the time when I was learning how to name chemicals and I was confused why I couldn't recognize almost any of the ingredients.

Ingredients to Avoid Living Pretty Naturally

I get a lot of questions around which ingredients to avoid. Well, the list is long and plentiful (search any ingredient on the Environmental Working Group's Skin Deep Cosmetic's Database) and is likely an inconvenient print out to take with you shopping. However, starting to familiarize yourself with some of the big baddies, is a great start.
