Lactogenic Foods and Herbs MOBI Motherhood International

Mothers have individual needs when it comes to lactogenic foods and herbs. Although most mothers produce milk well without having to consider their use at all, a few mothers find that they need to take a good amount every day, and that they may need to take a high dosage for two to four days to kick-start lactation.

Breastfeeding Getting started BabyCenter

How to start breastfeeding. The first time you hold your newborn in the delivery room is a great time to start breastfeeding. At the beginning, your body will produce small amounts of a special milk called colostrum that will help protect your baby from infection. (Your baby's tummy is very tiny, so she only needs these small amounts to fill up.
