#### **Best Wood Lathe Reviewed Compared Tested in 2018**

The Nova 1624-44 features a powerful 1.5-horsepower traditional AC motor. It has a voltage of 115 and speeds ranging from 215 rpm to 3,600 rpm. The speeds have eight interval stops, and they are set by moving the drive belt between pairs of pulleys.. It is a durable wood lathe made of solid cast iron, but it is light enough that it will require weight at its base to keep it steady.

## Wood Wikipedia

Wood, in the strict sense, is yielded by trees, which increase in diameter by the formation, between the existing wood and the inner bark, of new woody layers which envelop the entire stem, living branches, and roots. This process is known as secondary growth; it is the result of cell division in the vascular cambium, a lateral meristem, and subsequent expansion of the new cells.
