SPLIT BAMBOO FLY ROD

RELATED BOOK:

Bamboo fly rod Wikipedia

A bamboo fly rod or a split cane rod is a fly fishing rod that is made from bamboo. The British generally use the term "split cane." In the U.S., most use the term "bamboo." The "heyday" of bamboo fly rod production and use was an approximately 75-year period from the 1870-s to the 1950s when fiberglass became the predominant material for fly rods.

Fiberglass Fly Rods mckellipbamboorods com

When fiberglass was abandoned as a material used to make fly rods at the advent of graphite years ago, I lamented that it came at a time when the craftsmen that were making great inroads with this material, were abandoning it for the greater profits to be made with the newer graphite material.
