Chicken Eye Problems are Common in Chickens

Chicken eye problems do seem to occur in backyard flocks frequently. There are many different types of eye problems. In healthy chickens, vision is excellent during day light hours and extremely poor at night. The average chicken is able to see the smallest seeds and bugs, including mites, during the day, but as the sun begins setting, their vision becomes unreliable, causing them to head to

Animal husbandry Wikipedia

Animal husbandry is the branch of agriculture concerned with animals that are raised for meat, fibre, milk, eggs, or other products. It includes day-to-day care, selective breeding and the raising of livestock. Husbandry has a long history, starting with the Neolithic revolution when animals were first domesticated, from around 13,000 BC onwards, antedating farming of the first crops.
