Working with JavaScript in Rails Ruby on Rails Guides
3.2.2 data-url and data-params. Certain elements of your page aren't actually referring to any URL, but you may want them to trigger Ajax calls. Specifying the data-url attribute along with the data-remote one will trigger an Ajax call to the given URL. You can also specify extra parameters through the data-params attribute.. This can be useful to trigger an action on check-boxes for instance:

Permanent way history Wikipedia
The permanent way is the elements of railway lines: generally the pairs of rails typically laid on the sleepers

("ties" in American parlance) embedded in ballast, intended to carry the ordinary trains of a railway. It is described as permanent way because in the earlier days of railway construction, contractors often laid a temporary track to transport spoil and materials about the site; when
