7 Simple Ways To Help Honey Bees Care2 Healthy Living
4. Eat more honey and buy it from a local bee keeper. This is a pretty sweet way to help the bees (sorry, I can never resist a good pun.) Unlike big honey companies, local bee keepers tend to be much more concerned about the health of their bees than they are about their profits.

Ten things to do to help honeybees Environment The
Plant your garden with bee friendly plants. Encourage honeybees to visit your garden by planting single flowering plants and vegetables. Go for all the allium family, all the mints, all beans except French beans and flowering herbs. Bees like daisy-shaped flowers - asters and sunflowers, also tall plants like hollyhocks, larkspur and foxgloves.

5 ways to help our disappearing bees MNN Mother Nature
Let your veggies bolt. Seeding plants are a bee's best chance to stock up on food before the colder months. Unlike their wasp and yellowjacket cousins, which die out each winter, real bees slow down and wait for spring. Making sure their larder is stocked will help them snap back once the weather warms.

HELP HONEY BEES Planet Bee Foundation
Planting a pollinator garden helps honeybees immensely. Bees rely on the nectar and pollen from nearby flowers for their survival; when flowers are scarce, bees can starve. By planting a pollinator garden, you're ensuring that bees have a source of food year round -- just be sure your garden is pesticide free.
